## Projects

**BlueFun** | [Repo](#) | [Deployed](#)

- *BlueFin is an interactive musical interval training application*
- *With this project, I worked with a team of four to create a full-stack noSQL application using React. My main focuses on this project include meticulously building the database in its entirety on the back end and dynamically loading that data into the front end using React.*
- Tools/Languages: React, Three.js, Tone.js, JWT, Mongoose, MongoDB
